

Quick Snacks Project Documentation

Project Overview

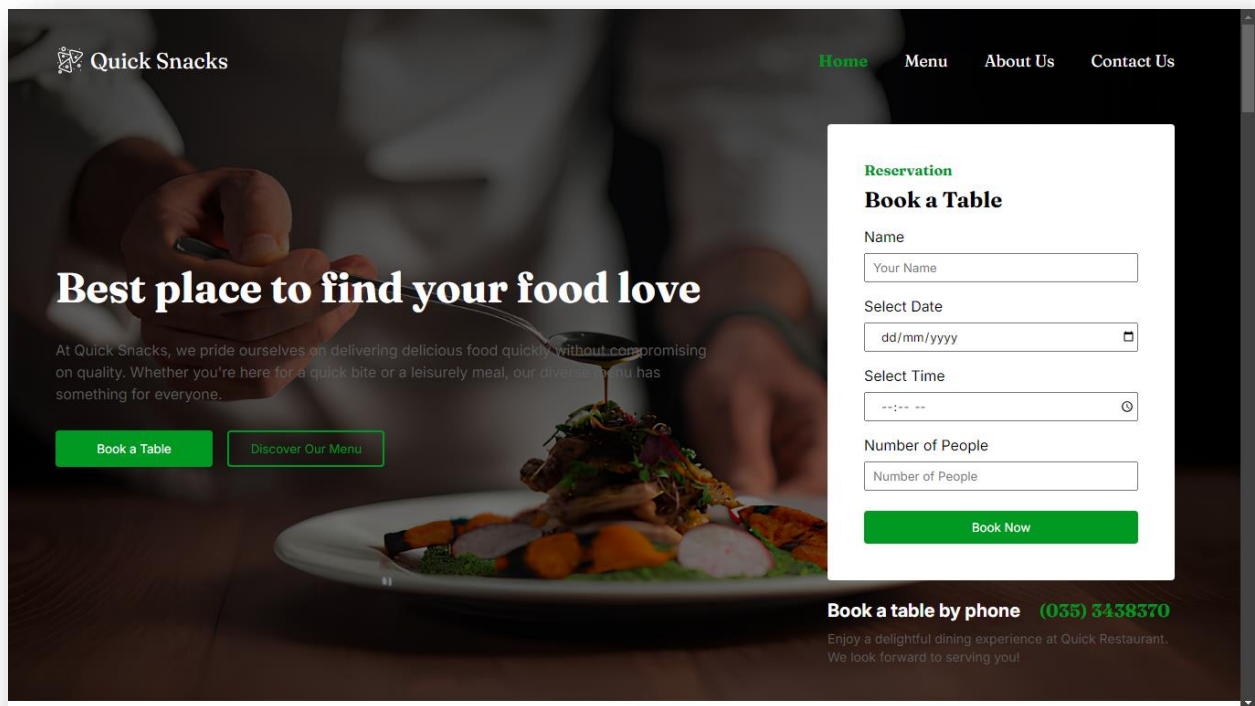

Quick Snacks is a modern, responsive restaurant website designed to provide users with a seamless browsing experience across all devices. This website was built using HTML, CSS, and JavaScript, focusing on clean design, mobile-friendliness, and functionality.

Table of Contents

1. Landing Page
2. About Us Section
3. Menu Page
4. Contact Page
5. Technologies Used
6. Conclusion

1. Landing Page

The landing page of Quick Snacks gives users an overview of the restaurant with a clean and visually engaging design. It includes a welcoming header with the restaurant's logo, navigation, and a banner image highlighting the restaurant's ambiance.

2. About Us Section

This section provides a brief introduction to Quick Snacks, emphasizing the restaurant's dedication to quality and fresh ingredients. The design is consistent with the rest of the site and showcases an image along with key details about the restaurant.

12

Years of experience

Samosa

Crispy pastry filled with spiced potatoes, peas, and sometimes minced meat. Often served with chutney for an extra burst of flavor.

30
PKR

Pakora

Deep-fried fritters made from a mixture of chickpea flour, spices, and vegetables like spinach, potato, or onion. A popular choice during rainy weather.

70
PKR

Chaat

A tangy and spicy street food made with a mix of chickpeas, potatoes, and yogurt, topped with tamarind chutney and crispy sev.

60
PKR

Keema Paratha

Flatbread stuffed with spiced minced meat, usually beef or chicken. It's a hearty snack that can also be enjoyed as a meal.

80
PKR

Dahi Bhalla

Soft lentil dumplings soaked in yogurt and topped with tamarind and mint chutneys, garnished with spices and sev.

100
PKR

Aloo Tikki

Spiced potato patties that are shallow-fried until crispy. Often served with chutney or as part of a chaat mix.

5. Technologies Used

- **HTML:** Structured the content and layout of the website.
- **CSS:** Styled the website, making it visually appealing and responsive across devices.
- **JavaScript:** Added interactivity such as menu toggling, animations, and form validation.

6. Conclusion

The Quick Snacks project was completed within a week, focusing on user experience and responsiveness. The result is a well-structured, easy-to-navigate website that reflects the brand's identity and mission to provide quality dining.
